Description :

Toothpaste for Adults 75ml (Product Code: SLE/SAH/05) is a 75 ml non-fluoride toothpaste used for adult oral hygiene in households, hostels, staff quarters and community hygiene-kit distributions. Buyers can choose it unflavoured or with peppermint flavour, and its fluoride-free formula makes it usable where local water already contains excess fluoride. It is manufactured by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India.

Labelling	Age-specific directions
Product code	SLE/SAH/05
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Adult Toothpaste Used For?

Adult toothpaste is a basic item in family hygiene kits, hostel supply lists and institutional stores, used with a toothbrush for twice-daily cleaning of teeth and gums. This 75 ml pack is sized for individual issue, so each adult in a household or dormitory can receive a personal supply rather than sharing a large tube.

Programmes working in areas with high natural fluoride in groundwater often prefer a non-fluoride paste for everyone, and this product fits that need. Choose peppermint where users expect a fresh taste, or the unflavoured option for people who find mint too strong.

What to Specify When Ordering

- Flavour: unflavoured or peppermint (or a split between the two).
- Number of 75 ml packs for adults.
- Whether adult toothbrushes, or the children's toothpaste, should be quoted in the same order.

Manufacturer

Jain Scientific Equipments Private Limited, operating as ScienceLab from Ambala, Haryana, India, manufactures this adult toothpaste. The company manufactures everyday hygiene products for hostels, institutions, NGOs and humanitarian buyers and consolidates them with brushes, soap
