Product Name :

Sling for use with Scale

Product Code :

SLE/AE/01

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

This square fabric sling carries a newborn or young infant on a hanging spring scale. The 80 x 80 cm panel holds a baby of up to 5 kg lying flat, for ages 0 to 6 months. Two straps, each fixed at two parallel corners, go over the scale's lower hook, andthe double-stitched, non-elastic fabric is machine washable.

Infant weighing sling specifications

Parameter	Detail
Type	One-size-fits-all weighing sling for spring scales
Intended users and load	Newborns and infants aged 0–6 months; holds an infant up to 5 kg
Shape and size	Square, 80 x 80 cm (±5%)
Suspension	2 straps/handles; each strap fitted with both ends on 2 parallel corners of the sling
Strap length	40 cm (±10%)
Fabric and seams	Soft and flexible but non-elastic, easy to clean; double-stitched seams
Washing and shrinkage	Machine washable up to 40°C with domestic-type detergent; shrinks not more than 10% after such washing
Product code	SLE/AE/01
Minimum order	10 units
Dispatch	Usually within 7 to 10 working days
Manufacturer	ScienceLab (Jain Scientific Equipments Pvt Ltd), Ambala, India

Newborn weighing tasks with the infant sling

Setting up a newborn weighing station. Hang the 5 kg tubular spring scale from a beam or tripod and pass both sling straps over its lower hook. Check that neither strap is twisted and that the square panel hangs level, then zero the scale with the empty sling before the first baby arrives.

Tare practice for trainees. Each trainee weighs the empty sling and writes the figure down. The group then weighs one baby twice: once with the scale zeroed on the empty sling, and once without zeroing, taking the sling weight away from the reading. The two results should agree, and any gap points to a reading or arithmetic slip.

Moving up a size. At every visit, note whether the baby can sit and how close the weight is to 5 kg. A baby who sits, or who nears that limit, moves to weighing trousers on the 25 kg dial spring scale. Length is taken on a portable baby and child length boar
