Description :

Microfiber Lens Cloth (Product Code: SLE/M/91) is a 12 × 16 inch microfiber cleaning clothused to wipe dust, oil smudges and dirt from lenses and other optical surfaces in laboratories, classrooms and field kits. It works dry or with cleaning sprays and fluids, can be used many times over, and is large enough for binoculars, cameras and bigger gear as well as microscope eyepieces. It is manufactured by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India.

Specifications

Parameter	Detail
Material	Microfiber
Size	12 × 16 inches
Removes	Dust, oil smudges and dirt
Use	With or without cleaning sprays and fluids
Reuse	Can be used multiple times
Suitable for	Binoculars, cameras and larger gear
Product code	SLE/M/91
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Microfiber Lens Cloth Used For?

Eyepieces collect skin oil and eyelash marks every lesson, objectives pick up dust, and field binoculars and cameras come back from outings covered in fine grit. A microfiber cloth lifts these deposits instead of smearing them, which is why it is standard kit for lab assistants who look after microscopes, for geography and ecology teachers managing binoculars, and for anyone photographing specimens.

Blow or brush away loose particles first, then wipe gently with light circular strokes from the centre of the lens outwards. For stubborn fingerprints, put a little lens-cleaning fluid on the cloth rather than directly on the glass so it does not seep into the mount. Keep the cloth in a clean pouch between uses and wash it when it looks dirty; a gritty cloth can scratch coated optics. It is a small but worthwhile addition to a microscopy starter kit for school labs.

Manufacturer

Jain Scientific Equipments Private Limited manufactures the Microfiber Lens Cloth under its trading name ScienceLab, in Ambala, Haryana. We manufacture this cleaning consumable for schools, colleges, laboratories and distributors, often packing it into the same order as microscopes and optical accessories. Institutions adding us as a vendor can use GSTIN 06AAECJ8618A1ZT and LEI 3358004HRD1JIVXKYX49 for the company. Background inform[illegible] profile page.
