Description :

Attribute Blocks Desk Set (Product Code: SLE/LMS/01) is a sixty-piece set of plastic attribute blocks used to teach shapes, sorting, patterns, size and counting in primary and middle school maths lessons. The blocks come in five shapes, two sizes, two thicknesses and three colours, packed in a storage tray whose shape sorter doubles as a tracing template. Part of our mathematics lab kits for India and abroad, it is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM science kit manufacturer in India, at its own factory in Ambala.

Specifications

Parameter	Detail
Pieces	Sixty
Attributes	Five shapes, two sizes, two thicknesses, three colours
Material	Plastic
Storage	Tray with shape sorter that can be used for tracing
Teaching focus	Shapes, sorting, patterns, size and counting
Product code	SLE/LMS/01
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Attribute Blocks Desk Set Used For?

Each block differs from the others in four attributes, shape, size, thickness and colour, and with sixty pieces every combination appears exactly once, which makes the set well suited to logical sorting. Children group blocks by one attribute and then by two, build "one-difference" trains where each block changes in only one way from the last, and describe pieces precisely, such as "the thick, large, red one". The same blocks support counting, comparing sizes and repeating patterns.

The shape sorter in the storage tray gives every piece a place to go, so packing away becomes a matching task in itself, and pupils can trace the sorter openings to draw shapes in their notebooks. For group work, split the blocks between tables and ask each group to invent a sorting rule for the others to guess. Wipe the plastic blocks with a damp cloth to keep them clean between classes.

OEM Manufacturer

Jain Scientific Equipments Private Limited, trading as ScienceLab, is the OEM (original equipment manufacturer) of the Attribute Blocks Desk Set and produces it at its licensed factory at Saha, Ambala, Haryana. Schools, teacher-training institutes, dealers and importers in India and international markets order it factory-direct, often as part of a complete mathematics lab, and every quotation comes straight from the manufacturer.
