Description :

Computerized Boiling Heat Transfer Apparatus (Product Code: SLE/MCE/70) is a bench unit used to observe and measure boiling heat transfer on a heated surface in engineering heat transfer laboratories. Colleges choose this engineering educational equipment in India becauseits transparent process tank shows evaporation on a heated cylinder that models a fire tube, while sensor data can be sent to a PC via USB. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM engineering lab equipment manufacturer, at its own factory in Ambala, India.
