Product Name :

Professional Chemistry Molecular Structure Model

Product Code :

SLE/Mo/04

Description :

The design is reasonable and the proportion is appropriate, which can accurately indicate the key structural parameters such as key length, key type, and key angle. Versatility.
This model is made up of colorful plastic balls and connecting keys. It has bright colors, excellent craftsmanship, convenient use and durability.

Science Lab Export, Can formulate the structural formulas of various molecules of inorganic and organic substances in chemistry textbooks. **Such as** alkane, alkene, alkyne, halide, alcohol, phenol, aldehyde, ketone, ester, etc. in middle school chemistry teaching, and stereoisomerism, optical isomerism and the conversion between them in university teaching materials.
Like dichloroethylene (C2H2) Cl2, this model can form three isomers at the same time.

Contact Science Lab for your Educational School Science Lab Equipments. We are best maths lab equipment manufacturers in india, physics lab equipments manufacturers, school educational equipments, school lab equipment manufacturer, school lab equipments manufacturers in india, scientific educational lab equipment.
