Description :

Stringing Beads (Product Code: SLE/PP/01) is a threading activity set used to build colour sorting, counting, pattern making and fine motor control in nursery, kindergarten and earlyprimary classrooms. One set holds beads in 7 colours and 3 threads, and is stated for 4 childrenaged 3 to 9 years, so it suits small-group corners. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, as a hands-on preschool kit for schools in India andabroad.

Key Details

Parameter	Detail
Contents	Beads in 7 colours; a set of 3 threads for stringing activities
Teacher support	Write-up with details of activities
Group size	For 4 children
Age range	3 to 9 years
Concepts	Classifying by colour; counting and quantity sense; patterns and number sense; eye-hand coordination and fine motor skills; one-to-one correspondence; making different patterns
Product code	SLE/PP/01
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Are Stringing Beads Used For?

Pushing a thread through each bead trains the pincer grip and eye-hand coordination that children later need for holding a pencil. The same beads carry early maths: children sort them into colour groups, string one colour and count the result, or say one number word for each bead to practise one-to-one correspondence. Repeating patterns such as red-blue-red-blue lead naturally into predicting what comes next.

With 3 threads for a group of 4, one child can act as the pattern checker while the others thread, and roles then rotate. The activity write-up gives teachers ready tasks, which helps the set fit alongside other mathematics lab kits in India's pre-primary sections. Keep an adult close to the youngest children, as with any small loose pieces, and store the beads in a closed container after use.

What to Specify When Ordering

- Number of sets: each set serves 4 children, so divide the class size by 4.
- The age group using it (the set is stated for ages 3 to 9).
- Any other Pre-Primary aids to be quoted in the same order.
