Description :

Animal Cell Plaque (Product Code: SLE/ECB/06) is a raised-relief teaching plaque used to show the organelles and inclusions of the animal cell in secondary school and college biology lessons. Moulded from heavy vacuum-formed plastic to 20 structures, each named on the accompanying key cards, it measures about 46 x 61 cm yet weighs only 1.2 kg. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India, for schools choosing an animal cell model in India.

Specifications

Parameter	Detail
Type	Relief plaque of the animal cell
Construction	Heavy plastic vacuum-formed sheet, moulded in relief
Structures moulded	20 (organelles and cell inclusions)
Identification	All structures identified by accompanying key cards
Size	46 x 61 cm (approx.)
Weight	1.2 kg (approx.)
Companion item	Plant cell plaque in the same series, moulded to 23 structures
Product code	SLE/ECB/06
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Animal Cell Plaque Used For?

Compared with a printed biology chart, the raised relief gives each organelle a shape and depth that students can see from across the room and trace with a finger up close. The series is designed to show every known organelle and inclusion of the cell, so teachers can work through the whole animal cell on one plaque and then ask students to match each of the 20 moulded structures to its name on the key cards.

Displayed beside the plant cell plaque from the same series, it makes the classic comparison lesson straightforward: learners list which structures appear in both cells and which belong only to one. After the lesson, a quick labelling quiz with the key cards set aside shows who has understood the layout of the cell.

What to Specify When Ordering

- Number of Animal Cell Plaques needed, for example one per biology room or one per group bench.
- Whether you also want the plant cell plaque (23 structures) from the same series for comparison lessons.
-
