Description :

Insect Pin Holder (Product Code: SLE/EZ/14) is a 12-hole wooden block used to keep entomology pins of different sizes, and other small objects, sorted and within reach while insects are being mounted. Students, teachers and collection curators use it at the pinning bench; its bevelled sides and corners and 9 x 10 x 4 cm size make it easy to handle. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Material	Wood
Holes	12
Edges	Bevelled sides and corners
Size	9 x 10 x 4 cm
Holds	Many pin sizes and other small objects
Product code	SLE/EZ/14
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Insect Pin Holder Used For?

Mounting an insect collection means switching between pins of several thicknesses, and loose pins on a bench are easily mixed up or spilled. With one size in each of the twelve holes, students can pick the right pin at a glance, and the block keeps every pin upright and ready while they work over a pinning board. Spare holes can take other small items, such as a fine brush, a labelling pen or a spare needle.

Write the pin size beside each hole with a fine marker so the sorting stays consistent from one class to the next. Keep the holder on the side of the bench away from the specimen so hands do not reach across fragile insects. As a wooden item it should be kept dry and wiped rather than washed. It is a small but useful part of an insect collection kit for school and college biology labs.

OEM Manufacturer

ScienceLab is the trading name of Jain Scientific Equipments Private Limited, the original equipment manufacturer (OEM) of this insect pin holder. It is produced at the company's own licensed factory at Saha, Ambala, Haryana, India, and supplied direct from the manufacturer to schools, colleges, museums, dealers and importers, not through a trading middleman. Repeat orders for matching lab sets are handled by the factory team, so ask us. Background is on the company profile page.
