Description :

Aquarium Dip Net (Product Code: SLE/EZ/18) is a small fine-mesh hand net used to catch and transfer fish, tadpoles and aquatic invertebrates in classroom aquaria and outdoor pond work. It has a 3 x 4 in net on an extra-strong, three-ply, vinyl-covered handle, and schools typically buy twelve or more so each group has its own. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Net	Fine mesh
Net size	3 x 4 in
Handle	Extra-strong, three-ply, vinyl-covered
Use	Indoors or outdoors
Class quantity	Suited to buying twelve or more
Product code	SLE/EZ/18
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Aquarium Dip Net Used For?

In a classroom aquarium, a small net is the gentlest way to move a fish or snail to an observation tank, isolate an animal, or lift out uneaten food. Outdoors, the same net scoops water boatmen, tadpoles and larvae from the edge of a pond or from a sampling tray into smaller pots for closer study. Its fine mesh holds tiny animals securely, while the vinyl-covered handle is comfortable for younger hands.

Guide the animal into the net slowly rather than chasing it, and transfer it quickly so it spends as little time out of water as possible. Rinse the net in clean water between tanks to avoid carrying algae or disease from one aquarium to another, then hang it to dry. A set of these nets makes pond and aquarium work practical for a whole class of biology students.

What to Specify When Ordering

- The number of nets, bearing in mind that twelve or more suits a typical class.
- Whether you also need tanks or trays to receive the animals.
- Your delivery location, so the quotation includes freight.

OEM Manufacturer

The aquarium dip net is manufactured by Jain Scientific Equipments Private Limited, which trades as ScienceLab and acts as the original equipment manufacturer (OEM). Production takes place at the company's own licensed factory at Saha, Ambala, Haryana, India, and the nets go factory-direct
