Product Name :

Toolmaker Microscope

Product Code :

SLE/M/35

Description :

For making various types of measurements of angles, Thickness radius, diameter etc.

Magnification: 30x with objectives 2x & Eyepiece 15x with field of view 12mm & working distance about 100mm.

Microscope tube inclined: 45 degree.

Measuring stage: 150x150mm with travels in X-Y direction.

Travel range 50 x 50mm having micrometer each of 25mm having least count 0.01mm or 0.005mm.

Rotatory stage graduation 0-360 degree with vernier 6 minutes complete provided with inclined Transmitted light illumination having separate intensity contracts.
