Description :

Empty Number Card (Set of 5) (Product Code: SLE/LP/21) is a set of blank number cards used to practise recognising, writing and placing numerals in early primary maths. Teachers or pupils write any numeral on the cards with the chalks supplied, then hang them from their hooks to form a number sequence that can be wiped and changed. The set is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, a school science kit supplier in India, within its range of mathematics lab equipment.

Key Details

Parameter	Detail
Contents	5 blank number cards
Writing	Chalks included for writing numerals on the cards
Display	Hooks for hanging the cards
Concepts covered	Numeral recognition; writing numbers; number location; connecting symbol to quantity
Product code	SLE/LP/21
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Empty Number Card Set Used For?

Because the cards start blank, the teacher decides which numbers each lesson needs: 1 to 5 for a first counting group, a run of two-digit numbers for older children, or a sequence with one card left empty for pupils to complete. Writing a numeral in chalk and then saying it aloud reinforces both recognition and correct number formation.

Hung on their hooks, the cards become a movable number line for number-location work: pupils decide where a given number belongs, re-order cards that are out of place, or find the missing value between two neighbours. Placing a small group of classroom objects beside each card connects the written symbol to the quantity it stands for, an important step before formal addition.

Supplier

Jain Scientific Equipments Private Limited, the company behind the ScienceLab name, supplies the Empty Number Card set from Ambala, Haryana, India to primary schools, teacher-resource centres, stockists and importers in India and international markets. The cards sit in the same Primary maths range as the number cards, digit cards and number mats listed below, so an early-number corner can be furnished through a single supplier. For extra chalk or a repeat supply, simply ask us. Company background is on the ScienceLab profile.
