Description :

Mini Fish Measuring Board (Product Code: SLE/EZ/25) is a lightweight PVC board used to measure the length of small fish quickly and consistently during fisheries, ecology and zoology fieldwork. A raised lip positions the fish, a built-in handle makes it easy to carry, and three scales — in eighths of an inch, tenths of an inch and centimetres — are silk-screened in high-resolution black. It is manufactured by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, as part of its range of biology lab equipment in India.

Specifications

Parameter	Detail
Material	Lightweight PVC
Scales	Three: eighths (in), tenths (in) and centimetres
Scale printing	Silk-screened in high-resolution black
Fish positioning	Raised lip
Handle	Built-in
Size (as listed)	15 in long; 16 x 5 x 1.5 in
Product code	SLE/EZ/25
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Fish Measuring Board Used For?

Fish length is one of the most useful measurements in a freshwater survey: it shows the size range of a population, helps separate young fish from adults, and can be plotted as a length-frequency chart back in class. On a measuring board, the fish lies on its side with its snout pushed gently against the raised lip, and the length is read where the tail ends, so every student measures in the same way.

Having inch and centimetre scales on one board lets a group record in the unit their worksheet asks for, or practise converting between them. Wet the board before each fish so the protective slime layer is not rubbed off, measure quickly, and return the fish to water straight away. Rinse the board in clean water afterwards and let it dry. It is a handy addition to zoology lab equipment used on fisheries and pond-study courses.

Manufacturer

This mini fish measuring board is manufactured by Jain Scientific Equipments Private Limited, trading as ScienceLab, of Ambala, Haryana, India. Schools, colleges, fisheries training centres and dealers can order it in field-kit quantities, with nets, traps and aerators on the same quotation, for customers in India and international markets. Company background is on the company profile page.
