Product Name :

Smoking Experiment

Product Code :

SLE/EB/05

Description :

- A simple apparatus draws smoke from a lighted cigarette through a white fiberglass filter.
- This kit exposes the amount and nature of the tars and nicotine produced by cigarettes.
- The resultant residue is compared with a calibrated color chart.
- The kit includes 25 filters.
- Easy to perform, this is a powerful experiment for students from elementary to college.
- Let your students clearly see the dangers of smoking.
