**Product Name :**

Greenbox Repl. Planting Tray

**Product Code :**

SLE/EBT/09

# Description :

**Greenbox Repl. Planting Tray** (Product Code: SLE/EBT/09) is a replacement polypropylene tray used to sow seeds and raise seedlings in Greenbox growing activities in school and college botany classes. Made from resistant polypropylene with drain holes, it keeps the growing medium from waterlogging and stays rigid and stable when students carry it, which suits any plant growth experiment. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, as part of its range of school biology lab equipment in India.

## Key Details

| Parameter | Detail |
|---|---|
| Type | Replacement planting tray (Greenbox) |
| Material | Resistant polypropylene |
| Drainage | Comes with drain holes |
| Construction | Provides rigidity and stability |
| Suitable for | Seed sowing, germination and early seedling growth activities |
| Product code | SLE/EBT/09 |
| Supplied by | Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India |

## What Is the Greenbox Planting Tray Used For?

Students fill the tray with compost or potting mix, sow their seeds and water from above or below. The drain holes stop water collecting at the bottom, which matters because waterlogged compost starves roots of air and can make seeds rot before they germinate. A rigid, stable tray is also easier for young learners to carry between the windowsill and the bench without flexing, so seedlings are not disturbed when groups check and record growth each day.

For a seed germination kit in a school setting, the tray makes a convenient unit for comparing conditions: one tray in light and one in shade, or trays watered on different schedules. Stand it on a saucer or shallow dish to catch drainage, and label the rim with the group name and sowing date. Replacement trays let a school swap out worn or cracked ones, or add trays so more groups can sow at the same time.

## What to Specify When Ordering

- The details of your Greenbox unit, so the fit of the replacement tray can be confirmed.
- The number of trays needed, for example one per student group.
- Whether you also need compost, seeds or drip trays, which are not listed with the tray.

## Supplier

This tray is supplied by Jain Scientific Equipments Private Limited, the Ambala, Haryana company that trades as ScienceLab. Because it is a replacement part for Greenbox growing units, lia and i comp
