Description :

Microscope Slides Glass (Product Code: SLE/M/94) are plain glass slides used to mount wet preparations, smears and sections for viewing under a microscope in school, college and laboratory work. Each pack contains 72 clear glass slides with ground edges, measuring 25 mm× 75 mm × 1.2 mm, ready for everyday temporary slides in biology practicals. They are suppliedby **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India.

Specifications

Parameter	Detail
Pack size	72 slides
Material	Clear glass
Edges	Ground
Size	25 mm × 75 mm
Thickness	1.2 mm
Product code	SLE/M/94
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Are Glass Microscope Slides Used For?

Plain slides are the base of almost every microscopy practical: onion-peel and cheek-cell mounts, leaf peels for stomata, pond-water drops, stained bacterial smears and hand-cut plant sections. Clear glass lets light from the microscope's condenser pass through evenly, and the ground edges are smoother to hold than raw-cut glass and less prone to chipping when slides are handled in large classes.

Hold slides by the edges, wipe each one with a lint-free cloth before use, and place the specimen in the centre so it lines up with the objective. For wet mounts, lower a cover glass at an angle to avoid trapping air bubbles. Slides used for temporary mounts can be washed, rinsed and dried for reuse if they are undamaged; put chipped or broken glass straight into a dedicated glass-waste container. A pack of 72 covers a full class for several practical sessions.

What to Specify When Ordering

- Number of packs of 72 slides.
- Whether cover glasses should be quoted with the slides.
- Any slide storage cases or dispensers needed on the same order.

Supplier

These Microscope Slides Glass are a laboratory consumable supplied by Jain Scientific Equipments Private Limited, the Ambala, Haryana company that trades as ScienceLab. We source them for schools, colleges, laboratories and dealers, and they are regularly packed with micro le page
