Description :

Foot For Rods (Product Code: SLE/LR/04) is a round tempered cast iron foot, 80 mm in diameter, used to stand a 12 mm support rod upright for light clamping and demonstration set-ups in school, college and research laboratories. Its compact circular footprint takes very little bench space, which makes it handy for single-clamp jobs and crowded benches. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer of school chemistry lab equipment in India, at its own factory in Ambala.

Specifications

Parameter	Detail
Material	Tempered cast iron
Foot diameter (D)	80 mm
Rod diameter (D)	12 mm
Product code	SLE/LR/04
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Foot for Rods Used For?

Not every job needs a large rectangular stand base. When a single clamp has to hold a test tube, a thermometer or a small funnel, a 12 mm rod standing in this 80 mm foot does the work while leaving the rest of the bench free. The small round footprint also fits on trays and in tight corners of a fume cupboard where a full-size base would be in the way.

Because the footprint is compact, keep loads light, low and centred over the foot; for tall or top-heavy apparatus, move up to a larger stand base. It also suits physics lab equipment set-ups in Indian schools, where a rod standing in a small foot can carry light demonstration pieces. Tempering is a heat treatment that reduces the brittleness of cast iron; keep the foot dry and wipe off spills so its surface stays clean.

What to Specify When Ordering

- The number of feet required.
- Whether you need rods to go with them; the foot takes 12 mm rods, and we will confirm matching rods in the quotation.
- Whether you prefer this tempered cast iron version or the stainless steel 18/10 foot listed separately.
- The delivery location.

OEM Manufacturer

Jain Scientific Equipments Private Limited, which trades as ScienceLab, is the OEM (original equipment manufacturer) of the Foot For Rods and makes it at its own licensed factory at Saha, Amba s deal
