Product Name :

3 Finger Clamps With Shaft

Product Code :

SLE/RC/04

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

3 Finger Clamps With Shaft (Product Code: SLE/RC/04) is a chromium-plated three-finger clamp on its own shaft, used to hold slim glassware such as test tubes, burettes and small flasks on a laboratory stand. Its PVC-coated fingers open to a span of 0–35 mm or 0–60 mm, set by two regulating screws that adjust independently, on a 150 mm clamp with a 10 mm shaft. It is madeby **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer of schoolchemistry lab equipment in India, at its own factory in Ambala.

Specifications

Parameter	Detail
Material	Chromium plated
Fingers	3, PVC coated
Span adjustment	Span width d independently adjustable by 2 regulating screws
Length A	150 mm
Shaft D/Ø	10 mm
Span d/Ø	0–35 mm or 0–60 mm (two versions)
Product code	SLE/RC/04
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the 3 Finger Clamp With Shaft Used For?

With spans that start at zero, these clamps are sized for slim items: the 0–35 mm version suits test tubes, burettes and narrow condensers, while the 0–60 mm version takes flask necks and small bottles. The shaft slots into a bosshead on a support rod, and the independent regulating screws let the fingers close evenly around the item.

Chromium plating gives the metal body a bright surface that is easy to wipe down, while the PVC coating on the fingers keeps bare metal off the glass. In titration practicals the 0–35 mm version can also serve as a burette clamp. Keep the PVC-coated fingers away from open flames, and release the screws before removing hot glassware.

What to Specify When Ordering

- Span version — 0–35 mm for tubes and burettes, or 0–60 mm for flask necks and small bottles.
- Quantity — how many clamps of each span per bench or stand.
- Bossheads — check that your fittings accept a 10 mm shaft.
- Stands or burette holders — add items from the related list if you are equipping new titration stations.
