Description :

Box Storage tubes Set of 14 (Product Code: SLE/CL/05) is a set of plastic tube storage boxes for cryopreservation, each built as a rack with a matching lid that fits together to form a closedbox with positions for 100 test tubes. The chemical-resistant plastic is made to withstand ultra-freezing, so samples can be organised on the bench and then transferred straight into cold storage. These boxes are used mainly at tertiary and reference facilities (laboratory networklevels III-IV) and are made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, alaboratory equipment manufacturer in India.

Specifications

Parameter	Detail
Type	Storage box for test tubes of indicated volumes
Design	Rack with lid, fitting together to become a closed storage box
Material	Chemical-resistant plastic, withstanding ultra-freezing
Capacity	Positions for 100 test tubes
Supplied as	Set of 14 (as named)
Intended use	Cryopreservation of samples, mainly at tertiary and reference facilities (laboratory network levels III-IV)
Estimated volume (as listed)	0.009 m3
Estimated weight (as listed)	0.5 kg

Typical Use

Serum, plasma, isolates and extracted nucleic acids are often kept frozen for repeat testing, external quality assessment or research. Tubes are loaded into the open rack while aliquoting, the lid is fitted to close the box, and the whole unit goes into a laboratory deep freezer in India or abroad. Recording the row and column position of each tube in a sample register lets staff find a single tube quickly without holding the box out of the freezer for long.

Label every tube with a freezer-grade label before freezing, as ordinary labels can peel at very low temperatures. Allow frozen boxes to stand briefly before opening so frost does not fall into open tubes, and wipe racks with a suitable laboratory disinfectant between uses. Keeping each box to a single project or sample type makes inventory checks much easier.

Manufacturer

These storage boxes come from Jain Scientific Equipments Private Limited, whose laboratory and educational products are marketed under the ScienceLab name from Ambala, Haryana. Clinical and reference laboratories can source storage labware together with tubes, racks and instru
