Description :

Bag Resealable Small Plastic (Product Code: SLE/CL/30) is a multi-purpose storage and transportation bag made of black low density polyethylene (LDPE), approximately 10x15cm, that can be sealed and re-sealed with a pressure closure. A white opaque area in the centre of thebag gives space to write sample IDs, dates or contents. It is used across a wide range oflaboratory services, from basic laboratories to reference centres, and is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, for customers who want a lab plasticware supplier in India that also covers their instruments and glassware.

Specifications

Parameter	Detail
Material	Low density polyethylene (LDPE)
Colour	Black
Type	Multi-purpose storage and transportation bag
Closure	Pressure seal; can be sealed and re-sealed
Labelling	White opaque writable area in the centre of the bag
Size	Approximately 10x15cm
Suitable for	A wide range of laboratory services, from basic laboratory to reference centre

Typical Use

Small resealable bags keep the many loose items of a laboratory organised and identifiable. Typical contents include dried blood spot cards once they have dried, blank slides or cover glasses set aside for a particular test, spare tips and small tools for field kits, and paperwork that must travel with a batch of samples. The black film makes these bags easy to tell apart from clear bags used for other purposes, while the white panel keeps the written label readable.

Write on the white area with a permanent marker before filling the bag, then press the closure firmly along its full length so it seals completely. The bag can be opened and closed again for items that are checked often. It is a general storage bag, so infectious specimens should still go into dedicated leak-proof containers and transport boxes. Laboratories that order consumables from one laboratory equipment supplier in India often add a stock of these bags to routine orders.

Supplier

Jain Scientific Equipments Private Limited, known to customers as ScienceLab, operates from Ambala, Haryana, and supplies practical consumables like these bags alongside the equipment it produces for clinical and teaching laboratories. The company profile has more background.
