Description :

Student Kit Grade 1-4 (Product Code: SLE/CS/02) is a lower-primary learning kit built around early writing, counting and colouring: A5 exercise books, HB pencils, erasers, sharpeners, a 12-colour pencil set, plastic rulers and an A4 plastic slate, all carried in a school bag. It gives young children the basic tools to practise letters and numbers every day, and suits schools, education departments and child-focused programmes that issue materials pupil by pupil. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, a school science kit supplier in India that also provides classroom essentials.

Specifications

- Bag, school, 400x270x100mm
- Ruler, plastic, approx. 30 cm, set of 10
- Slate, plastic, A4 (BOX-20)

Typical Use

Children in the first years of school learn to form letters and numerals through repetition, and the A4 plastic slate lets them practise and wipe clean as often as needed before copying their best work into the ruled A5 book. The square-ruled book helps keep digits in columns for early sums, while the colouring pencils support drawing, colour recognition and the fine motor control that good handwriting depends on. The kit sticks to pencils rather than pens, which suits the age group.

Schools that place a science kit bulk order in India often add these kits to the same consignment so that classroom materials arrive with lab items. Teachers find it helpful to keep the sharpeners and spare erasers in the classroom for shared use, check that each bag is complete on arrival, and w
