Product Name :

Adhesive Bandage

Product Code :

SLE/CL/37

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Adhesive Bandage (Product Code: SLE/CL/37) is a self-adhesive bandage with a central non-stick pad on a flexible, perforated non-woven tissue backing, approximately 30mm long. Its adhesive is hypoallergenic and water resistant, and every bandage is individually peel-packed, with 100 bandages to a box. Blood collection points use it to cover finger-prick and puncture sites, and schools, colleges and workplaces keep it for minor cuts. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, for buyers ordering disposable lab equipment in India alongside their clinical and safety supplies.

Specifications

Parameter	Detail
Type	Self-adhesive bandage
Adhesive	Hypoallergenic and water resistant
Pad	Central non-stick pad
Backing	Flexible perforated non-woven tissue
Length	Approximately 30mm
Packing	Individually peel-packed; box of 100 bandages

Typical Use

After a capillary sample is taken with a lancet, or once pressure has stopped bleeding at a venepuncture site, a small adhesive bandage keeps the spot covered and clean while the patient leaves. The non-stick pad sits over the puncture so it lifts away without pulling, the flexible backing moves with a finger or elbow, and the perforations let the skin breathe. The water-resistant adhesive helps the bandage stay in place through hand washing.

Apply it to clean, dry skin and avoid touching the pad when removing the peel-pack liners. Keeping each bandage in its own pack means a box can sit on a busy collection trolley without the rest being handled. Schools and colleges setting up a first aid box for the lab in India usually include a box of adhesive bandages for small cuts from broken glassware or dissection work.

Supplier

These bandages are supplied by ScienceLab, the trading name of Jain Scientific Equipments Private Limited of Ambala, Haryana. The company equips clinical and educational laboratories and adds practical first aid and collection consumables so customers can cover routine needs in one order. Company background is on the profile page.
