Product Name :

Chalk, Assorted Colors

Product Code :

SLE/CS/023

Description :

Chalk, Assorted Colors (Product Code: SLE/CS/023) is a box of 100 coloured chalk sticks in 10 different colours, with no white included, for drawing diagrams, maps, charts and labelled sketches on chalkboards and slates. Each non-toxic calcium carbonate stick is cylindrical and extruded, approximately 80mm long and 10mm in diameter. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, one of the school science lab equipment suppliers in India that also stocks everyday classroom consumables.

Specifications

Parameter	Detail
Type	Chalk, cylindrical, extruded
Stick size	Length approximately 80mm, diameter 10mm
Material	Calcium carbonate, non-toxic
Colours	10 colours, not including white — for example red, green, blue, orange, yellow, pink, purple, brown, cyan and light green
Box contents	100 chalks
For use with	Chalkboard or slate
Suitable for	Bulk classroom supplies or replenishing individual students'requirements
Estimated weight	1.5kg
Estimated volume	1.53cdm

Typical Use

Colour helps pupils separate the parts of a diagram: green for plant tissue and blue for water in a transport diagram, red and blue for arteries and veins, different colours for each side of a triangle or each bar of a chart. Drawing a cell, a flower or the water cycle in several colours turns a quick board sketch into a useful biology teaching aid in India's classrooms, especially where printed charts are not available for every topic. Geography teachers use brown, green and blue for landforms, vegetation and rivers on outline maps.

Keep a colour key in one corner of the board so the meaning of each colour stays consistent through the lesson. Store the box closed and dry, and hand out a few sticks per group rather than the whole box to reduce breakage. For everyday writing, pair this box with white chalk.

Supplier

Coloured chalk is one of the classroom consumables supplied by Jain Scientific Equipments Private Limited, the Ambala, Haryana company behind the ScienceLab brand, together with the boards and teaching aids it produces for schools in India and international markets.
