Description :

Light Operating Room Mobile w/access (Product Code: SLE/HE/05) is a mobile halogen surgical light used to illuminate the operating field during procedures in operating theatres, minor-surgery rooms and delivery rooms. It gives homogeneous light of 50,000–60,000 lux at 1 m and runs on AC mains with built-in batteries that take over automatically if the power fails. It is manufactured by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, forhospitals and health facilities.

Specifications

Parameter	Detail
Light source	Halogen; single or multiple 24 V halogen bulbs in a single cupola
Illuminance	Homogeneous light, 50,000–60,000 lux at 1 m
Colour temperature	4,000 K ± 10%
Light field	0.25 m diameter ± 10%
Focus	Focus control
Cupola	45–50 cm diameter, with central handle
Mounting	Pole stand with articulated arm; base with swivel castors and brakes
Construction	Low centre of gravity, sturdy
Vertical range	180–230 cm
Horizontal turning	More than 100 degrees
Power source	AC and battery; built-in transformer and batteries with battery indicator
Power failure	Automatic switch to battery
Mains supply	220 V / 50 Hz
Power consumption	150–250 W
Head	Adjustable
Housing	Cleanable
Features	Heat control
Product code	SLE/HE/05
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India
