Product Name :

Baby Cot Hospital Bassinet On Castors

Product Code :

SLE/HF/24

Description :

Baby Cot Hospital Bassinet On Castors (Product Code: SLE/HF/24) is a mobile newborn cot: a removable bassinet with a padded mattress, carried on a wheeled epoxy-coated steel frame so the baby can stay beside the mother or be moved to a nursery or examination area. Maternity wards, postnatal rooms, neonatal units and midwifery training labs use it. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, a scientific laboratory equipment manufacturer that also makes maternity and neonatal furniture.

Specifications

Parameter	Detail
Type	Mobile baby cot with removable bassinet
Bassinet	Sets into and removes smoothly from the cart frame; 71–80 x 36–45 x 24–27 cm (l x w x h)
Mattress	Padded, detachable for easy cleaning; high-density polyurethanefoam, density 20–30 kg/m³, 6–7 cm high
Mattress cover	Flexible plastic, highly tear resistant, anti-static, flame retardant, disinfectant- and liquid-proof, washable; removable via side zipper
Frame	Epoxy coated tubular steel, 2.5–3 cm (outside, across), 1.35–1.5 mm thickness; overall 77.5–80 x 44–45 x 90.5–97 cm (l x w x h)
Bracing	Transfer bars connect the lower distal portions of all 4 legs
Castors	4 heavy-duty swivel castors, 2 with total-lock brake (wheel and rotational lock); wheel 2.2–2.8 x 6.8–8.2 cm (w x diameter)
Castor construction	Single mold-on wheel, non-hooded for easy maintenance; sealed bearings in swivel and wheel; frame/bracket steel or nylon
Carrying capacity	33–50 kg
Environment	High resistance to corrosion (tropical environment)

Typical Use

After delivery the cot is wheeled to the mother’s bedside and braked, so she can see and reach her baby while resting. When the baby needs weighing, examination or a bath, the whole cot rolls to the nursery; alternatively the bassinet lifts off the frame and can be carried separately, leaving the frame in place. The cot’s raised height keeps the baby at a comfortable working level for staff.

Nursing and midwifery colleges buying laboratory furniture in India for newborn-care demonstrations place a cot like this beside the delivery bed in their simulation rooms. Between babies, take out the mattress, remove its zipped cover for washing or disinfection, wipe the bassinet and frame, and let everything dry before remaking the cot.
