Description :

Surgical Instruments, Abdominal SET (Product Code: SLE/MD/08) is a comprehensive instrument set used to perform open abdominal and gynaecological operations in hospital theatres. Surgical departments select it for emergencies such as exploratory laparotomy and caesarean section, and its key difference from a basic set is the self-retaining Collin and Balfour abdominal retractors, long Pean/Rochester and Mixter forceps, uterine forceps and a Yankauer suction tube. It is manufactured by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India.

Specifications

Parameter	Detail
