Description :

Drape, Surgical, Woven (Product Code: SLE/MR/04) is a reusable square fabric drape used to mark out and cover the working zone around a patient during medical and surgical procedures in operating theatres, clinics and delivery rooms. It measures 1 m x 1 m (±10%), has four hemmed borders and comes in blue or green polyester/cotton or 100% cotton fabric weighing 135 to 175 g per m². It is manufactured by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, a lab consumables supplier in India.

Specifications

Parameter	Detail
Type	Surgical drape: square of fabric with 4 hemmed borders
Size	1 m x 1 m (±10%)
Material	Polyester/cotton fabric (50/50% or 65/35%) or 100% cotton fabric
Fabric weight	135 g to 175 g per m²
Colours	Blue or green
Use	Multiple use
Washing and reprocessing	Normal washing; withstands boiling and autoclaving; resistschlorine 0.1%
Instructions for use	Disinfect in a chlorine solution, wash and autoclave in a steam steriliser; used sterile for aseptic medical/surgical procedures
Construction	Reusable woven textile
Product code	SLE/MR/04
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Woven Surgical Drape Used For?

A drape defines the zone where a medical or surgical procedure takes place on the patient, covering the surrounding skin and surfaces so that instruments and gloved hands work within a clean field. The one-metre square format suits minor surgery, suturing, catheter insertion, delivery-room procedures and dressing changes, and several drapes can be arranged together to frame a larger area.

Because the drape is woven linen rather than a disposable sheet, it is reprocessed between uses: disinfect it in a chlorine solution, wash it, then autoclave it in a steam steriliser before any aseptic procedure. The listing does not state that it is delivered sterile, so treat new stock as needing the same reprocessing. Blue and green are the usual theatre colours because they reduce glare under bright lights.

What to Specify When Ordering
