Product Name :

Bracelet, Identification, Newborn

Product Code :

SLE/DDS/011

Description :

Bracelet, Identification, Newborn (Product Code: SLE/DDS/011) is a single-use, non-elastic identification band used to identify newborns and small infants in maternity wards, neonatal units and other health care settings. The white band measures about 1.0 x 15 cm, has a writing space of about 7 cm for an ordinary ballpoint pen, adjusts through perforations and has a tamper-proof closure that is irreversibly damaged on removal. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India.

Specifications

Parameter	Detail
Type	Non-elastic identification bracelet for newborns and small infants
Dimensions	Approx. 1.0 x 15 cm (w x l)
Writing space	Approx. 7 cm long; writable with a common ballpoint pen, non-erasable
Closure	Definitive; irreversibly damaged upon removal; tamper proof and non-transferable
Adjustment	Length adjustable via perforations along the strap
Resistance	Resistant to water and common cleaning solvents
Skin contact	Atraumatic, non-toxic and hypo-allergenic
Material	Supple non-stretch plastic, LDPE-based, vinyl or equivalent
Colour	White
Use	Single use
Product code	SLE/DDS/011
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Newborn ID Bracelet Used For?

In a maternity ward, a band fitted soon after birth keeps each baby identifiable from the delivery room to discharge. Staff write the identification details on the band with an ordinary ballpoint pen; the writing cannot be erased and the band resists water and common cleaning solvents, so the details are not lost during bathing and routine cleaning.

The band can be worn around the wrist or the ankle, and its instructions note that the risk of removal is lower around the ankle. Adjust the length with the perforations, never tighten it excessively, and check that it is intact during consultations; when the baby is discharged, destroy the band to prevent re-use. Hospital stores that buy disposable lab equipment in India together with ward supplies can add the bands to the same order.
