Product Name :

Syringe, Disposable, 1ml, Sterile

Product Code :

SLE/HLI/05

Description :

Syringe, Disposable, 1ml, Sterile (Product Code: SLE/HLI/05) is a single-use, three-piece syringe used to inject small volumes of fluid into, or withdraw fluid from, the body in clinics, hospital wards and health-training laboratories. Nursing staff and training instructors choose the 1 ml size when a volume has to be read against a fine 0.05 ml scale interval. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, within its range of disposable lab equipment in India.

Specifications

Parameter	Detail
Construction	Three pieces: barrel with Luer nozzle, stopper and piston/plunger
Capacity	1 ml
Scale	Graduated scale on the barrel, easy to read
Scale interval	0.05 ml
Graduation lines	0.1 ml volume increments
Intended use	Injecting fluids into, or withdrawing fluids from, the body
Condition	Sterile, disposable (as named); ask us for the sterilisation method and pack size
Product code	SLE/HLI/05
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the 1 ml Disposable Syringe Used For?

The 1 ml syringe is the small-volume member of a syringe range. Its slim barrel lets a trained user draw up and deliver fractions of a millilitre, where a larger barrel would make the reading coarse. Hospitals and clinics keep it for small prescribed doses, while nursing and pharmacy training labs use it to teach students how to read fine graduations and handle a syringe correctly.

In practice, a separate sterile needle is fitted to the Luer nozzle, air bubbles are expelled before the dose is set, and the volume is read where the stopper meets the scale. Once used, the syringe and needle go straight into a sharps container. Stores teams sourcing from a lab consumables supplier in India often stock the 1 ml size next to 2 ml and 5 ml syringes so staff can match barrel size to volume.

What to Specify When Ordering

- Number of 1 ml syringes required (ask us for the pack size per box).
- Whether matching disposable needles are needed, and in which gauge.
- Delivery destination in India or abroad, so packing and freight can be quoted.
