Description :

Needle, Disposable, 19G, Sterile (Product Code: SLE/HLI/08) is a single-use stainless steel needle with a Luer-type base and protective cap, used to inject fluids into, or withdraw fluids from, parts of the body below the skin surface in hospitals, clinics and clinical-skills labs. At 19G it is the widest-bore needle among the gauges ScienceLab lists in this range. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India.

Specifications

Parameter	Detail
Gauge	19G
Components	Needle with base (Luer-type fitting) and protective cap
Needle material	Stainless steel
Base and protective cap	Medical grade plastic
Size marking	External diameter expressed in gauge and millimetres
Length	Not listed — state the length you need when enquiring
Intended use	Injecting fluids into, or withdrawing fluids from, parts of the body below the surface of the skin
Condition	Sterile (as named), disposable
Product code	SLE/HLI/08
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the 19G Disposable Needle Used For?

A lower gauge number means a wider needle, and 19G sits at the broad end of everyday hypodermic sizes. A wide bore lets liquid move with less resistance, so needles of this size are commonly chosen for drawing medicines or diluents up from vials and ampoules, or for thicker liquids, before a finer needle is fitted for the injection itself. Which gauge is used on a patient is always a clinical decision.

The Luer-type base pushes onto any standard Luer syringe nozzle, and the protective cap keeps the point covered until the moment of use. For pharmacy and nursing practicals, a supply of 19G needles lets students compare bore sizes side by side with the finer needles in the range. Hospitals purchasing disposable lab equipment in India often keep all three gauges on the same shelf.

What to Specify When Ordering

- Needle length required, since the listing gives the 19G gauge but no length.
- Quantity (ask us for the box count).
- Any other gauges or syringe sizes to include in the same quotation.
