Product Name :

Dissecting Dishes

Product Code :

SLE/EDE/02

Description :

Dissecting Dishes (Product Code: SLE/EDE/02) are rectangular stainless steel dishes with flanged edges, used on the practical bench to hold specimens, removed organs and small instruments while a dissection is in progress. Biology teachers, lab assistants and students in schools, colleges and training institutes rely on them to keep wet material contained and the workspace organised. They are made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, as part of its zoology lab equipment range for India and international markets.

Specifications

Parameter	Detail
Product type	Dissecting dish
Material	Stainless steel
Shape	Rectangular
Edges	Flanged
Suitable for	Holding specimens, removed organs and instruments during dissection practicals

Typical Use

In a typical practical, the specimen is opened on a dissection pan or board while a dissecting dish sits alongside to receive organs as they are removed, so each part can be examined, labelled or sketched on its own. The dish is also handy for rinsing small preserved specimens in water before work begins, and for parking forceps and needles between steps so they do not roll off the bench.

The flanged rim gives fingers a secure grip when a dish holding liquid has to be carried, and it helps limit drips on the way to the sink. Because the body is stainless steel, the dish can be scrubbed with warm soapy water after each session and dried fully before storage. Schools fitting out a new practical room often order these dishes with the rest of their school biology lab equipment in India so that every workstation receives a matching set.

Manufacturer

ScienceLab is the trading name of Jain Scientific Equipments Private Limited, a company based in Ambala, Haryana, that makes practical-room apparatus for science teaching. It is a registered MSME enterprise with manufacturing as its major activity (Udyam UDYAM-HR-01-0003714), and its overseas consignments move under Importer-Exporter Code AAECJ8618A issued by the DGFT. Background on the business is available on the company profile page.
