Product Name :

MUAC, Adult, Without Color Code

Product Code :

SLE/AE/06

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

MUAC, Adult, Without Color Code (Product Code: SLE/AE/06) is a plain, numerically graduated tape used to measure an adult's mid-upper arm circumference (MUAC) up to 50 cm in clinics, nutrition surveys and training courses. Without colour bands, it gives the actual reading in 1 mm steps, which clinicians, dietitians and researchers compare against their own protocol. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, a laboratory equipment supplier in India for health and nutrition work.

Specifications

Parameter	Detail
Type	MUAC measuring tape for adults, without colour code
Range	Up to 50 cm
Graduation	1 mm
Accuracy	±1 mm of the maximum measurement (50 cm)
Operating temperature	0°C to +40°C
Material	Non-tear, stretch-resistant plasticised synthetic paper
Thickness	Minimum 0.3 mm
Print	Permanent, resistant to solvents, easily readable in low light
Product code	SLE/AE/06
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Adult MUAC Tape Used For?

The person being measured stands with the arm relaxed at the side. The measurer locates the midpoint between the tip of the shoulder and the tip of the elbow, wraps the tape around the arm at that level so it lies flat against the skin without squeezing the tissue, and reads the circumference to the nearest millimetre. Repeating the measurement and averaging two close readings reduces observer error, particularly in surveys where many staff take measurements.

Because the tape is made of stretch-resistant synthetic paper, repeated use does not lengthen it and skew results, and the solvent-resistant print tolerates regular wiping. Nursing colleges and public-health trainers also keep it among their biology teaching aids in India to show students how arm circumference is measured in practice.

What to Specify When Ordering

- Adult numerical tape (this item, up to 50 cm) or the colour-coded MUAC, Child 11.5 Red for children, or both.
- The number of tapes per kit, including spares, since creased or cut tapes should be withdrawn.
