Product Name :

Polypropylene Thermometer Jar Without Cover

Product Code :

SLE/MU/06

Description :

Polypropylene Thermometer Jar Without Cover (Product Code: SLE/MU/06) is a round polypropylene container with a base, used to hold clean thermometers upright on hospital wards, in clinics and at nursing stations. Nurses use it because its narrow internal diameter of approximately 30mm and depth of approximately 110mm keep a thermometer standing safely, and the autoclavable polypropylene can go through a steam steriliser. It is manufactured by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India.

Specifications

Parameter	Detail
Material	Polypropylene, autoclavable
Shape	Round container with base
Internal diameter	Approximately 30mm
Overall height	Approximately 120mm
Depth	Approximately 110mm
Size basis	Size chosen as the most commonly used
Reprocessing	Clean, disinfect and sterilise in a steam steriliser as often as necessary
Use rule	Clean container for clean thermometers only
Cover	Without cover
Base	Stable, broad base
Product code	SLE/MU/06
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Thermometer Jar Used For?

A thermometer jar gives each ward or bedside a fixed, upright place to keep thermometers between readings, so they are not laid on trays or bedside tables where they can roll off and break. The jar is a basic item of medical equipment, and its size, around 120mm tall overall, was chosen as the one most commonly used, which suits standard thermometers.

Its description sets a clear rule: the jar is a clean container for clean thermometers only. Used thermometers should be cleaned before they go back in, and the jar itself should be cleaned, disinfected and sterilised in a steam steriliser as often as necessary. Many wards keep two jars, one in use and one being reprocessed, so there is never a gap.

Manufacturer

This thermometer jar is manufactured by Jain Scientific Equipments Private Limited, which trades as ScienceLab from Ambala in Haryana. Hospitals, clinics, nursing schools, dealers and impor
