Product Name :

Doyen Intestinal Clamp Forceps Curved

Product Code :

SLE/SI/27

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Doyen Intestinal Clamp Forceps Curved (Product Code: SLE/SI/27) is a curved, non-traumatic intestinal clamp used to occlude a section of bowel crosswise while an anastomosis is being sutured in abdominal surgery. General and gastrointestinal surgeons rely on its very springy, soft jaws on a 23 cm instrument, which close precisely and hold the bowel through the grip of the jaw surface. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, which also acts as a laboratory equipment exporter from India for hospital buyers abroad.

Specifications

Parameter	Detail
Type	Intestinal clamp, curved
Jaws	Very springy and soft; non-traumatic
Occlusion	Form and mechanical action permit precise closing
Adhesion	Provided by the surface of the jaws
Length	23 cm
Material	Martensitic steel (quenched, magnetic)
Composition	0.20% carbon; 13% chromium
Intended use	Transverse occlusion of a section of intestine while suturing an anastomosis
Product code	SLE/SI/27
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is a Doyen Intestinal Clamp Used For?

When a segment of bowel is removed and the two ends are joined, the intestine has to be closed off temporarily on either side of the join. Doyen clamps are placed across the bowel for this, and their soft, springy jaws hold the lumen shut while the surgeon sutures the anastomosis, then release cleanly when the join is complete.

The curved pattern and 23 cm length give reach into the abdomen while keeping the handles clear of the working area. Precise, even closure is the key quality, so check that the jaws meet along their full length before each use. Surgical departments building abdominal sets through a laboratory instruments supplier in India usually order these clamps with tissue forceps, a needle holder and a self-retaining retractor.

Supplier

Jain Scientific Equipments Private Limited, trading as ScienceLab, is an Ambala-based company that sources and supplies intestinal clamps and other abdominal-surgery instruments. Hospitals, medical colleges, surgical dealers and importers can include the Doyen clamp in a combined order with forceps and retractors. Details of the company are on our company profile.
