Product Name :

Magnifying Glass 2

Product Code :

SLE/M/61

Description :

Magnifying Glass 2 (Product Code: SLE/M/61) is a single-lens hand magnifier with an optically ground, highly polished 2.5x lens, used for low-power viewing of specimens, maps, instrument scales and fine print in school science rooms. Its gentle magnification shows a larger area of the object at once, which suits younger learners making their first observations. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, as a simple magnifier for lab and classroom use.

Key Details

Parameter	Detail
Type	Hand magnifying glass, single lens
Magnification	2.5x
Lens finish	Optically ground and highly polished
Product code	SLE/M/61
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the 2.5x Magnifying Glass Used For?

A low-power lens is the right tool when the whole object matters more than tiny detail: a complete leaf with its vein pattern, a spoonful of soil with seeds and grit, a flower head, a feather or a mineral sample. In physics and chemistry rooms it helps students read the fine graduations on thermometers, rulers and measuring cylinders without squinting. Teachers also use it to introduce the idea of magnification before students move on to a microscope, making it a handy magnifier loupe for any India lab.

Hold the lens steady and adjust the distance between lens and object until the image is sharp; at 2.5x there is a comfortable working gap for pointing, drawing or counting. Because the lens surfaces are ground and polished, clean them only with a soft lens cloth, keep the magnifier in a case or drawer, and never leave it in direct sunlight.

Supplier

Jain Scientific Equipments Private Limited, trading as ScienceLab from Ambala, Haryana, supplies this 2.5x magnifier with its range of hand lenses, microscopes and viewing accessories. Schools, coaching centres, dealers and importers in India and international markets can order it singly or in class quantities. See the ScienceLab profile for company details.
