Product Name :

Sprayer Compression Type 11.35 Litres

Product Code :

SLE/SAH/20

Description :

Sprayer Compression Type 11.35 Litres (Product Code: SLE/SAH/20) is a hand-operated compression sprayer used to apply chlorine solutions, pesticides and insecticides over larger areas in health, sanitation and vector-control work. It holds approximately 11.35 litres, works at an operation pressure of 4 bar and comes with an air pressure gauge, relief valve, lance and trigger valve with lock-off. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, which pairs lab equipment export from India with sourcing of public-health equipment such as this sprayer.

Specifications

Parameter	Detail
