Description :

Microslide Basic Human Histology (Product Code: SLE/PS/83) is a Microslide of 8 related 35mm photomicrographs used to introduce the basic tissues of the human body in school and early college biology. Its images run from a stained cross-section of bone and cartilage to ciliated epithelium, stained nerve cells, striated muscle and red and white blood cells, each marked with arrows and callouts. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**,Ambala, India.

Specifications

Parameter	Detail
Format	8 related 35mm images photographed through a microscope
Viewing device	Microslide Viewer
Supporting tissue images	Bone XS (stained), cartilage, fat cells
Epithelial image	Epithelial tissue / ciliated epithelial cell
Nerve and muscle images	Nerve cells (stained), striated muscle cells
Blood images	Red blood cells, white blood cells
Student notes	Detailed text folder with questions, plus a pocket that stores the Microslide
Product code	SLE/PS/83
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Microslide Basic Human Histology Used For?

Most histology courses begin with four tissue families: epithelial, connective, muscle and nervous. This Microslide covers all four, so a teacher can move from the cilia on epithelial cells to the stained nerve cells, the banding of striated muscle and the supporting matrix of bone and cartilage. The two blood images let students compare red and white cells before they attempt a blood smear of their own.

Students can keep the images beside them while drawing, using the callouts to label their diagrams correctly. Because it needs only a Microslide Viewer rather than a microscope and stains, the set is an easy addition to school biology lab equipment for classes that are just starting human biology.

Supplier

Jain Scientific Equipments Private Limited, trading as ScienceLab, supplies this histology Microslide from Ambala, Haryana, as part of a wider list of prepared slides and biology teaching aids. Schools, colleges, teacher-training centres and distributors in India and international markets order through the company. Visit the company profile for more about ScienceLab.
