Product Name :

Mitosis Simulation Lab Investigation

Product Code :

SLE/ECB/14

Description :

An easy, graphic way to visualize the process of mitosis.

Class size - 40 students

Learn about chromosome function and structure by constructing models using coloured pop beads.

Students will then use these "chromosomes" to model each stage of mitosis.

In the process they'll gain a better understanding of what happens during cell division.

Additionally, they'll learn to distinguish between plant and animal mitosis.
