Description :

Model Plant Cell (Product Code: SLE/ECB/16) is a compact, 20 cm diameter cell model used by students to explore plant cell structures at group tables in school biology. It is sized for hands-on handling rather than distant display, and it is also offered as part of the Plant and Animal Cell Model Activity Set for teaching both cell types together. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer and biology lab equipment supplier in India, at its own factory in Ambala, and suits a biology model kit bulk order.

Specifications

Parameter	Detail
Type	Plant cell model for student exploration
Diameter	20 cm
Also available in	Plant and Animal Cell Model Activity Set
Product code	SLE/ECB/16
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Model Plant Cell Used For?

At 20 cm across, the Model Plant Cell is sized for a bench shared by a small group rather than for the teacher's desk. A common approach is to give each group a model and a blank outline of a plant cell, and ask students to identify and label as many structures as they can before the class reviews the answers together. Handling a real three-dimensional model helps younger students who find flat textbook drawings difficult to interpret.

When ordered within the Plant and Animal Cell Model Activity Set, the two models make a straightforward compare-and-contrast exercise: students list what the cells share and what only the plant cell has. Because several units fit in one cupboard, the compact size also suits schools equipping more than one section, and older students can use it for quick revision of plant cell structure.

What to Specify When Ordering

- Whether you need the Model Plant Cell on its own or within the Plant and Animal Cell Model Activity Set.
- The number of units, for example one per student group across all sections.
- Your delivery location and any other cell models to include on the same quotation.

OEM Manufacturer

Jain Scientific Equipments Private Limited, known to customers as ScienceLab, is the OEM (original equipment manufacturer) of the Model Plant Cell and makes it at its own licensed factory at Saha, Ambala, Haryana, India. Class quantities go out factory-direct to schools, dealers and impor us. Visit t
