Description :

Visualising Cells Poster (Product Code: SLE/ECB/17) is a laminated classroom wall posterused to teach the differences and similarities between bacterial, animal and plant cells in schooland college biology. Measuring 890 mm wide by 585 mm high, it combines detailed illustrationswith photography of structures such as the Golgi apparatus, nuclear pores, chloroplasts and mitochondria. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala,India, and makes a strong first item in a biology chart set for schools in India.

Specifications

Parameter	Detail
Format	Laminated wall poster
Dimensions	890 mm W x 585 mm H
Content style	Detailed illustrations and photography in an easy-to-see, easy-to-understand format
Cell types compared	Bacterial, animal and plant cells
Structures depicted	Cell membrane, Golgi apparatus, nucleus and nuclear pores, endoplasmic reticulum, chloroplasts and mitochondria
Product code	SLE/ECB/17
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Visualising Cells Poster Used For?

Mounted near the whiteboard or microscope benches, the poster becomes the class's shared reference for cell structure. When students meet a new organelle, they can see how the Golgi apparatus or the nuclear pores are arranged and where each structure sits within the cell, and the side-by-side treatment of bacterial, animal and plant cells makes it easy to ask comparison questions such as which cell types contain chloroplasts or a true nucleus.

The mix of illustration and photography helps students move between an idealised diagram and a real image, the step many find difficult when they first look down a microscope. Because the surface is laminated, teachers can annotate it temporarily with a non-permanent marker during revision and wipe it clean afterwards.

Supplier

Jain Scientific Equipments Private Limited, which trades as ScienceLab, supplies the Visualising Cells Poster from Ambala, Haryana, as part of its cell biology teaching range. Schools can combine the poster with cell models, slides and other laboratory items on one quotation, and distributors in India and international markets can order it in quantity.
