Product Name :

Visualizing Mitosis Poster

Product Code :

SLE/ECB/18

Description :

Visualizing Mitosis Poster (Product Code: SLE/ECB/18) is a wall poster used to teach the stages of mitosis in school and college biology by setting detailed illustrations of each stage beside close-up photomicrographs of an onion root tip and a whitefish blastula undergoing division. At 890 x 585 mm, it lets students review and compare plant and animal mitosis at a glance. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, as school biology lab equipment in India for cell division units.

Specifications

Parameter	Detail
Format	Wall poster
Dimensions (w x h)	890 mm x 585 mm
Illustrations	Detailed illustration of each mitotic stage
Photomicrographs	Close-ups of an onion root tip (plant) and a whitefish blastula (animal) undergoing mitosis
Teaching focus	Reviewing and comparing the steps of plant and animal mitosis
Product code	SLE/ECB/18
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Visualizing Mitosis Poster Used For?

Onion root tip and whitefish blastula are the two specimens students most often examine when learning to recognise mitosis, because both contain many actively dividing cells. With the poster on the laboratory wall, students can glance up from the microscope and match what they see — condensed chromosomes, a line of chromosomes at the cell equator, chromatids pulled to opposite poles — with the corresponding illustration and photomicrograph.

The pairing of plant and animal images also makes clear the differences teachers want students to explain, such as the absence of centrioles in most plant cells and the way the two cell types complete division. Outside practical sessions, the poster supports quick recaps at the start of a lesson and revision before examinations, and it shares its dimensions with the Visualising Cells Poster so the two hang neatly side by side.

Supplier

ScienceLab is the trade name of Jain Scientific Equipments Private Limited, based in Ambala, Haryana, which supplies the Visualizing Mitosis Poster alongside its cell division models, simulations and prepared slides. Schools and colleges can place the poster on the same quotation as the rest of their biology list, and distributors in India and international markets can order it in quantity. For vendor registration, the supplying company is Jain Scientific Equipments Private Limited (CIN U29309HR2020PTC087597, GSTIN 06AAECJ8618A1ZT). Our company profil
