Product Name :

Microslide Helpful Bacteria

Product Code :

SLE/PS/89

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Microslide Helpful Bacteria (Product Code: SLE/PS/89) is a Microslide of 8 related 35mm images, photographed through a microscope, used to teach the useful roles of bacteria in school biology and environmental science. It covers bacteria of decay and fermentation at 2000x, nitrogen-fixing bacteria in soil, a root nodule and roots, and the bacteria behind vinegar, cheese and sour milk. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala,India.

Specifications

Parameter	Detail
Format	Microslide of 8 related 35mm images
Viewing	Microslide Viewer
Decomposition and fermentation	Bacteria of decay (2000x), bacteria of fermentation (2000x)
Nitrogen fixation	Nitrogen-fixing bacteria in soil, in a nodule and in roots
Food-related bacteria	Vinegar bacteria, cheese bacteria, sour milk bacteria
Labelling	Arrows and callouts mark the features being studied
Text folder	Detailed notes and questions, with a pocket for storing the Microslide
Product code	SLE/PS/89
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Microslide Helpful Bacteria Used For?

Many students think of bacteria only as germs. This set balances that picture by showing bacteria that break down dead matter, ferment sugars and supply plants with nitrogen. The three nitrogen-fixing images follow the bacteria from the soil into a root nodule and the root itself, giving a clear visual thread through the nitrogen cycle.

The last three images bring the topic into the kitchen with vinegar, cheese and sour milk bacteria, a natural lead-in to a curd-making or fermentation activity. Schools putting together a microbiology teaching kit often pair this set with Microslide Harmful Bacteria so students weigh the benefits of bacteria against the diseases some of them cause.

Supplier

Microslide Helpful Bacteria is supplied by Jain Scientific Equipments Private Limited, which does business as ScienceLab from Ambala, Haryana. The company sources Microslide titles and viewers for biology and environmental science courses and delivers them with any other lab items on the same order to institutions and dealers in India and international markets.
