Description :

Forceps, Plastic (Product Code: SLE/BL/31) are disposable plastic forceps, 125mm long, usedto pick up seeds, leaf discs, filter paper and small specimens without touching them by hand in biology practicals. Because they are meant for single use, each group can work with its ownclean pair and soil or plant material is not carried from bench to bench. They are supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, as part of its disposable biology lab equipment in India for schools and colleges.

Specifications

Parameter	Detail
Type	Forceps, disposable (single use)
Material	Plastic
Length	125mm
Product code	SLE/BL/31
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Are the Plastic Forceps Used For?

In a germination practical, students use a pair of these forceps to place seeds on moist filterpaper in a petri dish; in a soil-life lesson, they pick small invertebrates out of a sorting tray for a closer look under a hand lens. A plastic tip is gentle on soft material and less likely to mark glass slides or dishes, which makes the forceps handy for moving coverslips, leaf fragments and paper discs as well.

Handing out a fresh pair per group keeps samples from one habitat or culture separate from the next, and used forceps can go into the lab's waste stream at the end of the lesson according to your school's disposal rules. Keep plastic forceps away from flames and hot apparatus, and use metal forceps for any step that involves heating. For teachers building a biology lab equipment list in India, a stock of disposable forceps is a simple way to run whole-class practicals without collecting and washing instruments between periods.

Supplier

These forceps are supplied by **Jain Scientific Equipments Private Limited**, an Ambala, Haryana company that trades as **ScienceLab**. Alongside apparatus and glassware, ScienceLab sources practical consumables such as disposable forceps, so a school can order a complete practical set-up from one vendor. Read our company profile for more about the business.
