Product Name :

Plastic Disposable Mouthpieces for Peak Flow Meter

Product Code :

SLE/BL/048

Description :

Plastic Disposable Mouthpieces for Peak Flow Meter (Product Code: SLE/BL/048) are single-use white plastic mouthpieces used to fit a peak flow meter for each new student during breathing practicals in schools and colleges. They come in a pack of 15, so a class can give every participant a fresh piece instead of passing one mouthpiece along the bench. They are supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, as a routine consumable for a health education kit in schools.

Specifications

Parameter	Detail
Material	Plastic
Colour	White
Type	Disposable
Pack size	Pack of 15
For use with	Peak Flow Meter
Product code	SLE/BL/048
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Are Peak Flow Meter Mouthpieces Used For?

Before the peak flow activity begins, hand each student a mouthpiece from the pack. The student fits it to the meter, takes their readings, then removes it and discards it before passing the meter on. Keeping an open pack at the bench lets the next person start straight away, so a whole class can record peak flow in a single lesson without long pauses between students.

When planning a practical, count one mouthpiece per student per session; larger classes will need more than one pack. Store unopened mouthpieces in a clean, closed container away from chemicals and dust until they are needed. They are a regular reorder item wherever a first aid training kit or breathing lesson in school uses the peak flow meter often.

Supplier

These mouthpieces are supplied by **Jain Scientific Equipments Private Limited**, the company behind the **ScienceLab** brand, based in Ambala, Haryana, India. It supplies them as a consumable for teaching use to schools, colleges and training institutions in India and international markets; the company profile has further details.
