Description :

Microslide The Digestive System (Product Code: SLE/PS/98) is a set of 8 related 35 mm microscope photographs used to show the structure of the human gut, from the mouth to thesmall intestine, in school biology classes. Students follow food past the salivary gland and tastebuds, down the gullet, into the stomach lining with its gastric glands and on to the intestinal villi. Itis supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India.

Specifications

Parameter	Detail
Number of images	8 related 35 mm images, photographed through a microscope
Mouth	Salivary gland; Taste buds
Gullet	Gullet (Oesophagus); Smooth muscle; Junction of gullet and stomach
Stomach	Stomach lining and gastric glands
Small intestine	Small intestine; Intestinal glands and villi
Teaching features	Arrows and callouts on the images; detailed text folder with a pocket to store the Microslides
Viewer	Made to be viewed through a Microslide Viewer
Product code	SLE/PS/98
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Microslide The Digestive System Used For?

The images are arranged in the order food travels, which makes the set a natural companion to a lesson on digestion and absorption. Students can relate each structure to its job: saliva from the salivary gland, taste detection in the taste buds, the smooth muscle that moves food along the oesophagus, and the change in lining where the gullet joins the stomach.

In the stomach and small intestine frames, the callouts draw attention to gastric glands, intestinal glands and villi, so learners can explain how the folded lining increases the surface for absorption. Working in a Microslide Viewer, a group can annotate a worksheet directly from the images, then use the text folder questions to check understanding. It is a compact addition to school biology lab equipment where time for sectioning and staining is limited.

Supplier

We supply Microslide The Digestive System as part of the biology teaching range offered by Jain Scientific Equipments Private Limited, known by its trading name ScienceLab, from Ambala in Haryana. Schools and dealers in India and international markets can combine it with models and glass slide sets on a single enquiry. Our profile page explains more about the company.
