Product Name :

Garden Secateurs

Product Code :

SLE/BL/37

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Garden Secateurs (Product Code: SLE/BL/37) are hand-held pruning shears used to snip buds and similar plant material cleanly for flower study, propagation experiments and school-garden care. Listed among the garden tools in the biology range, they give botany teachers a clean cut where ordinary scissors would crush soft stems. They are supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, alongside its botany lab equipment in India.

Key Details

Parameter	Detail
Type	Garden secateurs (hand pruning shears)
Purpose	Snipping buds and similar plant material
Listedamong	Garden tools
Product code	SLE/BL/37
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Are the Garden Secateurs Used For?

Biology teachers use secateurs whenever fresh plant material has to be cut rather than torn: snipping flower buds at different stages of opening to show how petals, stamens and carpels develop; taking soft stem cuttings for rooting trials; and collecting leaves or shoots for identification and microscope work. A clean cut leaves less crushed tissue at the end of the stem, which helps cuttings stay healthy and keeps specimens looking like the living plant.

For cuttings, cut just above a leaf joint on the parent plant and just below one on the piece being rooted. Wipe the blades between plants if you are sampling from different beds, so that disease is not carried from one plant to the next. Pupils should use secateurs only under supervision and hand them over closed, handle first. As part of a school's plant biology teaching aids in India, a pair kept in the prep room saves improvising with scissors that bruise stems.

Supplier

Jain Scientific Equipments Private Limited, trading as **ScienceLab** from Ambala, Haryana, India, supplies these secateurs together with the plant-study apparatus and fieldwork items a biology department needs. For vendor registration, institutional and tender buyers can record the supplying company's GSTIN 06AAECJ8618A1ZT and LEI 3358004HRD1JIVXKYX49. Read more on our company profile.
