Product Name :

Apparatus Air Track Light Gate

Product Code :

SLE/PHY/03

Description :

One of the most useful pieces of apparatus that a physics class could have. Used to study linear motion under virtually frictionless conditions. Allows one to four carts to ride along on a cushion of air. Photo light gate system complete with timer light gates -accessories kit and Blower Air source. Spring bumpers can be attached to record impact forces and weights can be attached to each cart for studying momentum and many other phenomena's involving force. High precision pulleys are included to mount on the ends for performing free falling and incline experiments.
