Product Name :

Molecular Models, Pre-Assembled, Iron, Zinc,
and Copper

Product Code :

SLE/Mo/43

**Description :**

Molecular models help the teacher convey a concrete representation of the molecular world. They can be used by students at all levels, to represent simple substances right through to more complex structures like Buckminsterfullerene and ionic lattices.

These 'original' models have been used by thousands of students worldwide and are renowned for their ease of use.

The joining pieces are carefully designed to ensure models are firmly constructed so they can be passed around during the lesson without fear of falling apart.

Excellent quality models produced from precision engineered moulds and materials.

Each kit comes in a durable storage case with compartments for segregation of parts.
