Description :

Blue Gun and Coil for Deionisers (Product Code: SLE/LI/12) is a coiled delivery line with a dispensing gun used to draw purified water from a laboratory deioniser in school, college and research labs. It is described as suitable for any of the range of deionisers, making the deionising unit easier to use while reducing the chance of wasted water. This lab equipment accessory is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India.

Key Details

Parameter	Detail
Items	Coil and dispensing gun (blue gun)
For use with	Deionisers — described as suitable for any of the range; confirm fit for your unit
Benefit	Increases the usability of the deionising unit and reduces the chance of waste
Product code	SLE/LI/12
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Deioniser Gun and Coil Used For?

Without a dispensing gun, deionised water is usually drawn from a fixed outlet, which makesfilling wash bottles and volumetric flasks or rinsing chemistry lab glassware awkward. A coiledline stretches from the deioniser to the point of use and draws back when released, while the gun lets the user start and stop the flow by hand, so less purified water runs to waste.

Position the deioniser so the coil reaches the sink or bench without being pulled tight, and rest the gun where its nozzle will not touch the bench or sink between uses. After a long idle period, run a little water through the line before collecting water for analytical work.

What to Specify When Ordering

- The make and model of your deioniser, so the fit can be confirmed.
- The number of gun-and-coil sets required.
- The delivery city or country.

Supplier

Jain Scientific Equipments Private Limited, trading as ScienceLab, supplies this gun and coil set from Ambala, Haryana, to laboratories, schools, dealers and importers. Water-purification accessories are often ordered together with bottles and carboys for storing deionised water, and these can be quoted in the same enquiry. More on the company is on our company profile.
