Product Name :

Acid Storage Cabinet Vertical

Product Code :

SLE/CH/184

Description :

Acid Storage Cabinet Vertical (Product Code: SLE/CH/184) is an upright, robustly built cabinet for keeping bottles of acid locked away in one place in a school, college or research chemistry laboratory. Reinforced doors, a 3 point locking system and a leak proof sump let laboratory staff control who can reach corrosive stock and keep drips inside the unit instead of on the floor. It works as a dedicated chemistry reagent cabinet for acids and, like the rest of our chemistry lab equipment in India, is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala.

Specifications

Parameter	Detail
Type	Vertical acid storage cabinet
Construction	Robust construction with reinforced doors
Finish	Powder coated paint finish
Door handle	Chrome
Locking	3 point locking system
Spill containment	Leak proof sump, 30 Ltr
Shelves	1
Dimensions (H x W x D)	710 x 915 x 457 mm

Typical Use

Most chemistry departments place this cabinet in the preparation room, close to where dilute acids are made up before practical classes. Stock bottles stand on the single shelf and on the base, so if a cap loosens or a bottle cracks, the liquid runs into the 30 litre sump rather than across the room. Because the doors lock at three points, the laboratory in-charge can keep concentrated acids out of reach of students between lessons, which makes it a sensible lab storage cabinet for Indian school and college prep rooms.

Good practice is to store acids apart from alkalis and flammable solvents, label the shelf edge with what belongs there, and look into the sump during routine checks. If liquid has collected, neutralise and clean it out according to your laboratory safety procedure before returning the bottles. The 710 mm height and 457 mm depth give a compact footprint, so measure the space you have in mind before ordering.

Manufacturer

This cabinet is produced by Jain Scientific Equipments Private Limited, the Ambala, Haryana company that trades under the ScienceLab name and builds apparatus and storage for teaching laboratories. Background on the company, its facilities and the range it offers is available on the ScienceLab company profile.
